Advances in Indonesia

Following the inauguration in April, 2010 of HRH the King of Surakarta as GULL's first Pro Chancellor, Vincent has been developing both community and workplace applications of the GULL system in Indonesia. Prior to this, Vincent had been guiding a small group of senior practitioners who wanted to explore the potential of the GULL system for their respective organizations. In June, 2010 one of the group completed a 12 month journey to professional Doctor of Management, during which he created a blueprint for operationalizing the GULL system in his organization, headquartered in Jakarta.
